

# #88 Harvest Bounty Wax-based Products (Poured Candle)

## Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations.

Revision Date: 9/3/2025

Date of Issue: 9/3/2025

Version: 1.0

## SECTION 1: IDENTIFICATION

### 1.1. Product Identifier

**Product Form:** Mixtures

**Product Name:** #88 Harvest Bounty Wax-based Products (Poured Candle)

**Product Code:** 70388

\*This document is intended to be used for safety in the workplace only, and is not a consumer document.

### 1.2. Intended Use of the Product

Home Fragrance

### 1.3. Name, Address, and Telephone of the Responsible Party

#### Company

Trapp Fragrances

1025 W. 8th St.

Kansas City, Missouri 64101

T: 1-800-670-4212

[www.trappfragrances.com](http://www.trappfragrances.com)

### 1.4. Emergency Telephone Number

**Emergency Number** : 1-800-424-9300 (CHEMTREC)

## SECTION 2: HAZARDS IDENTIFICATION

### 2.1. Classification of the Substance or Mixture

#### GHS-US Classification

Skin Sens. 1 H317

Aquatic Acute 3 H402

Aquatic Chronic 3 H412

Full text of hazard classes and H-statements : see section 16

### 2.2. Label Elements

#### GHS-US Labeling

**Hazard Pictograms (GHS-US)** :

GHS07

**Signal Word (GHS-US)** :

Warning

**Hazard Statements (GHS-US)** :

H317 - May cause an allergic skin reaction.

H402 - Harmful to aquatic life.

H412 - Harmful to aquatic life with long lasting effects.

**Precautionary Statements (GHS-US)** :

P261 - Avoid breathing dust, fume.

P272 - Contaminated work clothing should not be allowed out of the workplace.

P273 - Avoid release to the environment.

P280 - Wear protective gloves, protective clothing, and eye protection.

P302+P352 - IF ON SKIN: Wash with plenty of water.

P321 - Specific treatment (see section 4 on this SDS).

P333+P313 - If skin irritation or rash occurs: Get medical advice/attention.

P362+P364 - Take off contaminated clothing and wash it before reuse.

P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations.

### 2.3. Other Hazards

Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

### 2.4. Unknown Acute Toxicity (GHS-US)

No data available

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

# #88 Harvest Bounty Wax-based Products (Poured Candle)

## Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations.

### 3.1. Substance

Not applicable

### 3.2. Mixture

| Name                                                                        | Product Identifier   | %           |
|-----------------------------------------------------------------------------|----------------------|-------------|
| Ethanone, 1-(1,2,3,4,5,6,7,8-octahydro-2,3,8,8-tetramethyl-2-naphthalenyl)- | (CAS-No.) 54464-57-2 | 0.8 – 1.6   |
| Eugenol                                                                     | (CAS-No.) 97-53-0    | 0.16 – 0.8  |
| Cinnamaldehyde                                                              | (CAS-No.) 104-55-2   | 0.16 – 0.8  |
| Vanillin                                                                    | (CAS-No.) 121-33-5   | 0.16 – 0.8  |
| Methyl Cyclopentenolone                                                     | (CAS-No.) 765-70-8   | 0.08 – 0.16 |
| Citral                                                                      | (CAS-No.) 5392-40-5  | <0.08       |

## SECTION 4: FIRST AID MEASURES

### 4.1. Description of First-aid Measures

**General:** Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

**Inhalation:** When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

**Skin Contact:** Remove contaminated clothing. Drench affected area with water for at least 15 minutes. Obtain medical attention if irritation develops or persists. In molten form: Cool skin rapidly with cold water after contact with molten product. Removal of solidified molten material from skin requires medical assistance.

**Eye Contact:** Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention. In molten form: Removal of solidified molten material from the eyes requires medical assistance.

**Ingestion:** Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

### 4.2. Most Important Symptoms and Effects Both Acute and Delayed

**General:** Skin sensitization.

**Inhalation:** Prolonged exposure may cause irritation.

**Skin Contact:** May cause an allergic skin reaction. Prolonged exposure may cause skin irritation. Contact with hot wax may cause thermal burns.

**Eye Contact:** May cause slight irritation to eyes. Contact with hot wax may cause thermal burns.

**Ingestion:** Ingestion may cause adverse effects.

**Chronic Symptoms:** None known.

### 4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed

If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

## SECTION 5: FIRE-FIGHTING MEASURES

### 5.1. Extinguishing Media

**Suitable Extinguishing Media:** Water spray, fog, alcohol-resistant foam, carbon dioxide (CO<sub>2</sub>), dry chemical powder.

**Unsuitable Extinguishing Media:** Do not use a heavy water stream. Use of heavy stream of water may spread fire. Do not use water when molten material is involved, contact of hot product with water will result in a violent expansion as the water turns to steam causing explosion with massive force.

### 5.2. Special Hazards Arising From the Substance or Mixture

**Fire Hazard:** Not considered flammable but will burn at high temperatures.

**Explosion Hazard:** Product itself is not explosive but if dust is generated, dust clouds suspended in air can be explosive.

**Reactivity:** Hazardous reactions will not occur under normal conditions.

### 5.3. Advice for Firefighters

**Precautionary Measures Fire:** Exercise caution when fighting any chemical fire.

**Firefighting Instructions:** Remove containers from fire area if this can be done without risk. Avoid raising dust. Do not breathe fumes from fires or vapors from decomposition. Use water spray or fog for cooling exposed containers.

**Protection During Firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection.

**Hazardous Combustion Products:** Thermal decomposition generates: Carbon oxides (CO, CO<sub>2</sub>). Nitrogen oxides. Ketones. Aldehydes. Organic compounds. Irritating fumes.

# #88 Harvest Bounty Wax-based Products (Poured Candle)

## Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations.

**Other Information:** Do not allow run-off from fire fighting to enter drains or water courses. Do not add water to molten material as this may cause spattering.

### Reference to Other Sections

Refer to Section 9 for flammability properties.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1. Personal Precautions, Protective Equipment and Emergency Procedures

**General Measures:** Do not get in eyes, on skin, or on clothing. Do not breathe dust.

#### 6.1.1. For Non-Emergency Personnel

**Protective Equipment:** Use appropriate personal protective equipment (PPE).

**Emergency Procedures:** Evacuate unnecessary personnel.

#### 6.1.2. For Emergency Personnel

**Protective Equipment:** Equip cleanup crew with proper protection.

**Emergency Procedures:** Ventilate area. Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit.

### 6.2. Environmental Precautions

Prevent entry to sewers and public waters. Avoid release to the environment. Collect spillage.

### 6.3. Methods and Materials for Containment and Cleaning Up

**For Containment:** Contain solid spills with appropriate barriers and prevent migration and entry into sewers or streams. Where possible allow molten material to solidify naturally.

**Methods for Cleaning Up:** Clean up spills immediately and dispose of waste safely. Cool molten material to limit spreading. Recover the product by vacuuming, shoveling or sweeping. Transfer spilled material to a suitable container for disposal. Avoid generation of dust during clean-up of spills. For particulates and dust: Use only non-sparking tools. Contact competent authorities after a spill.

### 6.4. Reference to Other Sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

## SECTION 7: HANDLING AND STORAGE

### 7.1. Precautions for Safe Handling

**Additional Hazards When Processed:** Risk of thermal burns on contact with molten product. Contains substances that are combustible dusts. If dried and allowed to accumulate, may form combustible dust concentrations in air that could ignite and cause an explosion. Take appropriate precautions.

**Precautions for Safe Handling:** Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Do not breathe dust. Avoid contact with skin, eyes and clothing. Use appropriate personal protective equipment (PPE). Avoid creating or spreading dust.

**Hygiene Measures:** Handle in accordance with good industrial hygiene and safety procedures.

### 7.2. Conditions for Safe Storage, Including Any Incompatibilities

**Technical Measures:** Comply with applicable regulations.

**Storage Conditions:** Keep container closed when not in use. Store in a dry, cool and well-ventilated place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.

**Incompatible Materials:** Strong acids, strong bases, strong oxidizers. Materials reactive with hydroxyl compounds. When molten: water.

### 7.3. Specific End Use(s)

Home Fragrance

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1. Control Parameters

For substances listed in section 3 that are not listed here, there are no established Exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), NIOSH (REL), or OSHA (PEL).

| Vanillin (121-33-5) |                               |                      |
|---------------------|-------------------------------|----------------------|
| USA AIHA            | WEEL TWA (mg/m <sup>3</sup> ) | 10 mg/m <sup>3</sup> |

| Citral (5392-40-5) |                         |                                                                 |
|--------------------|-------------------------|-----------------------------------------------------------------|
| USA ACGIH          | ACGIH TWA (ppm)         | 5 ppm (inhalable fraction and vapor)                            |
| USA ACGIH          | ACGIH chemical category | dermal sensitizer, Skin - potential significant contribution to |

# #88 Harvest Bounty Wax-based Products (Poured Candle)

## Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations.

|  |  |                                                                                 |
|--|--|---------------------------------------------------------------------------------|
|  |  | overall exposure by the cutaneous route, Not Classifiable as a Human Carcinogen |
|--|--|---------------------------------------------------------------------------------|

### 8.2. Exposure Controls

**Appropriate Engineering Controls:** Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed. Avoid creating or spreading dust.

**Personal Protective Equipment:** Gloves. Protective clothing. Protective goggles.

**Materials for Protective Clothing:** Chemically resistant materials and fabrics.

**Hand Protection:** Wear protective gloves.

**Eye Protection:** Chemical safety goggles.

**Skin and Body Protection:** Wear suitable protective clothing.

**Respiratory Protection:** If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

**Thermal Hazard Protection:** When working with hot material, use suitable thermally protective clothing.

**Environmental Exposure Controls:** Avoid release to the environment.

**Other Information:** When using, do not eat, drink or smoke.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on Basic Physical and Chemical Properties

|                                        |                 |
|----------------------------------------|-----------------|
| Physical State                         | : Solid         |
| Appearance                             | : Not available |
| Odor                                   | : Not available |
| Odor Threshold                         | : Not available |
| pH                                     | : Not available |
| Evaporation Rate                       | : Not available |
| Melting Point                          | : Not available |
| Freezing Point                         | : Not available |
| Boiling Point                          | : Not available |
| Flash Point                            | : Not available |
| Auto-ignition Temperature              | : Not available |
| Decomposition Temperature              | : Not available |
| Flammability (solid, gas)              | : Not available |
| Lower Flammable Limit                  | : Not available |
| Upper Flammable Limit                  | : Not available |
| Vapor Pressure                         | : Not available |
| Relative Vapor Density at 20°C         | : Not available |
| Relative Density                       | : Not available |
| Specific Gravity                       | : Not available |
| Solubility                             | : Not available |
| Partition Coefficient: N-Octanol/Water | : Not available |
| Viscosity                              | : Not available |

## SECTION 10: STABILITY AND REACTIVITY

**10.1. Reactivity:** Hazardous reactions will not occur under normal conditions.

**10.2. Chemical Stability:** Stable under recommended handling and storage conditions (see section 7).

**10.3. Possibility of Hazardous Reactions:** Hazardous polymerization will not occur.

# #88 Harvest Bounty Wax-based Products (Poured Candle)

## Safety Data Sheet

According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules And Regulations.

- 10.4. Conditions to Avoid:** Direct sunlight, extremely high or low temperatures, and incompatible materials. Avoid creating or spreading dust.
- 10.5. Incompatible Materials:** Strong acids, strong bases, strong oxidizers. Materials reactive with hydroxyl compounds. When molten: water.
- 10.6. Hazardous Decomposition Products:** Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1. Information on Toxicological Effects - Product

**Acute Toxicity (Oral):** Not classified

**Acute Toxicity (Dermal):** Not classified

**Acute Toxicity (Inhalation):** Not classified

|                                           |                        |
|-------------------------------------------|------------------------|
| <b>Eugenol (97-53-0)</b>                  |                        |
| <b>LD50 Oral Rat</b>                      | 1930 mg/kg             |
| <b>Cinnamaldehyde (104-55-2)</b>          |                        |

| <b>Eugenol (97-53-0)</b> |   |
| <b>IARC Group</b>        | 3 |

**Specific Target Organ Toxicity (Repeated Exposure):** Not classified

**Reproductive Toxicity:** Not classified

**Specific Target Organ Toxicity (Single Exposure):** Not classified

**Aspiration Hazard:** Not classified

**Symptoms/Injuries After Inhalation:** Prolonged exposure may cause irritation.

**Symptoms/Injuries After Skin Contact:** May cause an allergic skin reaction. Prolonged exposure may cause skin irritation. Contact with hot wax may cause thermal burns.

**Symptoms/Injuries After Eye Contact:** May cause slight irritation to eyes. Contact with hot wax may cause thermal burns.

**Symptoms/Injuries After Ingestion:** Ingestion may cause adverse effects.

**Chronic Symptoms:** May cause cancer.

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1. Toxicity

**Ecology - General:** Harmful to aquatic life. Harmful to aquatic life with long lasting effects.

|                                                                                                 |                                                                             |

| NOEC Chronic Crustacea           | 5.9 mg/l                                                                           |
| <b>Citral (5392-40-5)</b>        |                                                                                    |
| LC50 Fish 1                      | 4.1 mg/l                                                                           |
| EC50 Daphnia 1                   | 7 mg/l (Exposure time: 48 h - Species: Daphnia magna)                              |

### 12.2. Persistence and Degradability

|                                                              |                                                         |
|--------------------------------------------------------------|---------------------------------------------------------|
| <b>#88 Harvest Bounty Wax-based Products (Poured Candle)</b> |                                                         |
| Persistence and Degradability                                | May cause long-term adverse effects in the environment. |

### 12.3. Bioaccumulative Potential

|                                                              |                  |
|--------------------------------------------------------------|------------------|
| <b>#88 Harvest Bounty Wax-based Products (Poured Candle)</b> |                  |
| Bioaccumulative Potential                                    | Not established. |
| <b>Cinnamaldehyde (104-55-2)</b>                             |                  |
| Log Pow                                                      | 2.22 (at 18 °C)  |
| <b>Vanillin (121-33-5)</b>                                   |                  |
| Log Pow                                                      | 1.23 (at 22 °C)  |
| <b>Citral (5392-40-5)</b>                                    |                  |
| Log Pow                                                      | 2.76 (at 25 °C)  |

**12.4. Mobility in Soil** Not available

### 12.5. Other Adverse Effects

**Other Information:** Avoid release to the environment.

## SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1. Waste treatment methods

**Waste Disposal Recommendations:** Dispose of contents/container in accordance with local, regional, national, and international regulations.

**Additional Information:** Container may remain hazardous when empty. Continue to observe all precautions.

**Ecology - Waste Materials:** Avoid release to the environment. This material is hazardous to the aquatic environment. Keep out of sewers and waterways.

## SECTION 14: TRANSPORT INFORMATION

The shipping description(s) stated herein were prepared in accordance with certain assumptions at the time the SDS was authored, and can vary based on a number of variables that may or may not have been known at the time the SDS was issued.

**14.1. In Accordance with DOT** Not regulated for transport

**14.2. In Accordance with IMDG** Not regulated for transport

**14.3. In Accordance with IATA** Not regulated for transport

## SECTION 15: REGULATORY INFORMATION

### 15.1. US Federal Regulations

|                                                                                               |                                 |
